A Heritage of Quality | The Spirit of Innovation

CT800 Treadmill

The **CT800** is stout and extremely durable, weighing in at over 350 lbs. The combination of the heavy duty steel frame and aluminum console masts & side rails make it comparable to treadmills at much higher price points in the commercial market. The large workout area makes this model very appealing to walkers and runners.

Other design elements include:

- A bright, Tri-color LED console whose programming is very similar to our other C series consoles
- Quick Speed and Incline keys to save time and make your clients workouts more efficient
- Contact and wireless heart rate options to help keep clients in their safe & effective zone
- Dual drive motor cooling fans to protect and extend the life of the motor and control board
- Low maintenance, hard wax deck system provides hassle free use for thousands of miles
- A spacious 22" x 60" workout area to accommodate tall individuals
- A Habasit® Commercial Belt to lessen the impact of the foot strikes
- C-safe Power and Communication capabilities for A/V control and virtual racing interaction with WebRacing® software

Quick Speed
and Incline Keys

The **CT800** features convenient adjustments and monitoring, critical feedback such as actual Heart Rate and % of projected max, and creative programs including a Fit Test utilizing the Gerkin Protocol. All of these attributes make it a great addition to any commercial environment.

CT800 Treadmill

Ergonomically Correct Contact Heart Rate Grips

Fan to keep you cool

20-Character Message Center

Heart Rate % Profile

Large Blue-LED Matrix Window

Convenient water bottle holder and cargo compartment for keys, phone, or MP3 player

As with any product, a major importance is the user interface. We focused on making everything easily accessible and comfortable: dual storage trays for beverages, keys, or MP3 players, ergonomically friendly pulse grip posts for a more natural hand position, and a Turbo cooling fan to keep your clients cool and encourage them to workout longer.

A quick press of a button and your clients are off on a walk, a run, or one of the many specialized workouts. Our large, easy-to-read console gives them constant feedback from calories to distance to time.
